

AQUASMART® THERMO

Water based, One Component Polyurethane Insulating Paint

DESCRIPTION

AQUASMART® THERMO is a one component, water based insulating paint for both interior and exterior use. It is a water-based polyurethane with exceptional performance in difficult climatic conditions.

AQUASMART® THERMO is a unique insulating product specifically designed to reduce unwanted summer time heat gain and unwanted winter time heat loss from buildings to which it has been applied. The product retains its insulating properties due to the fact that the cells are 100% closed always.

Apply with brush or roller, airless spray is possible; please contact our technical department for further details.

Consumption: 2 Lt/m² (1 Lt product gives a dry film thickness of 1mm).

RECOMMENDED FOR

The product is recommended as an insulating wall paint for both interior and exterior walls. It is elastic and has excellent crack bridging properties even in very low temperatures.

LIMITATIONS

Not recommended for:

- Unsound substrates,
- Not for direct UV exposure. Paint over with either Aquasmart PU PAINT or Aquasmart-Hybrid

FEATURES & BENEFITS

- Excellent insulating properties, 100% closed cells.
- Water based
- Easy to apply & repair.

- Thixotropic
- Elastic even at below zero temperatures.
- Capable of bridging small cracks.
- Water vapor transmission: The film breathes so there is no accumulation of humidity under the coat.
- Easy coloring of product with almost any water based pigment paste available at hardware stores.

APPLICATION PREREQUISITES

Can be successfully applied on:

Concrete, stucco, over old acrylic well adhered paints.

APPLICATION PROCEDURE

Priming: Depending on the application specifications and performance demands various primers may be used.

For humidity barrier properties we recommend the use of either **AQUADUR™**, **AQUASMART® EPOXY PRIMER**.

For refurbishment over old acrylic paint please contact our technical department.

Mixing:
Use a low speed (100 rpm) mixer. Although thinning is not necessary, the material can be further thinned by 5-10% water.

Application:

Apply with roller, brush or airless spraying in one or two coats.

Do not apply under conditions of wet weather or expected wet weather or on low temperature.

AQUASMART® THERMO
